Ubiquiti Instant 802.3af Indoor 48V

[Read More](#)

SKU: NET-UBNT-802AF-IND

Price: 5,140 Vt

Stock: instock

Categories: [Ubiquiti](#), [UPS / PSU](#)

Product Description

Features:

The Instant 802.3af Gigabit PoE Converter transforms any Ubiquiti® UniFi®, UniFi Video, or airMAX® 24V PoE (Power over Ethernet) device into a fully compliant, 802.3af-compatible product. The Instant 802.3af Gigabit PoE Converter works with 10/100/1000 Mbps ports to deliver high throughput speeds over its wired connection. The Instant 802.3af Gigabit PoE Converter integrates seamlessly with a variety of auto-sensing 802.3af PoE switches for remote power control applications. As you manage and monitor your network, you can conveniently power or power cycle your remote devices using your 802.3af switch. For ease of power management, you can centralize the 802.3af switch and power source, and you can include a UPS (Uninterruptible Power Supply) as a backup. This way your network continues to run even during a temporary power outage. Available in both indoor and outdoor versions, the Instant 802.3af Gigabit PoE Converter is compatible with Ubiquiti UniFi, UniFi Video, or airMAX 24V PoE devices* using 100 Mbps or Gigabit Ethernet ports. High voltage carries power more efficiently (using less current) than low voltage. The Instant 802.3af Gigabit PoE Converter enables longer cable runs due to a more efficient power delivery – so your products can get the power they require even when they are located far from the 802.3af switch. The Instant 802.3af Gigabit PoE Converter provides an additional $\pm 15\text{kV}$ of Ethernet isolation for built-in protection that lessens the risk of ESD or surge damage to your devices.

Specification:

Dimensions: Ø 30.26 x 95.5 mm (Ø 1.19 x 3.76") Weight: 50 g (1.76 oz) Networking Interface PoE In (802.3af): (1) Gigabit RJ45 Port Networking Interface PoE Out (24V Passive): (1) Gigabit RJ45 Port Operating Temperature: 0 to 70° C (32 to 158° F) Power Input: 48V, 802.3af Max.

Power Output: 24V, 0.5A Power Method: 24V Passive PoE (Pairs 4, 5+; 7, 8 Return) Ethernet
ESD/Surge Protection: $\pm 15k$

EXTRALINK Power Supply with Battery Charger 12V/13.8V 155W

Categories: [UPS / PSU](#)

Product Description

Extralink buffer power supply - ensures continuous operation

The buffer power supply unit is an electrical device that converts 230 V mains voltage to DC voltage. Its specificity lies in the fact that we can connect an external battery to it, from which energy will be drawn in case of a 230 V power outage, so as to ensure the continuity of the receiving device.

More efficient cooling of the device

The perforated metal casing facilitates airflow, which results in more efficient cooling of the unit. The screw terminals are marked accordingly and are used to connect the cable entries in accordance with electrical principles. The installer can adjust the output voltage in a given range with a potentiometer.

Specification:

Features / filters

Output type of supply [Screw terminals](#)

Output voltage [12V, 13,8V,](#)

Power supply [> 100W](#)

Basic technical parameters

Output voltage CH1	13.8 V
Output voltage CH2	13.3 V
Output current CH1	10.5 A
Output current CH2	0.5 A
Output voltage range	CH1:12~14.5 V
Mains voltage	88~264 V AC 47~63Hz; 124~370 V DC
Input current	2.5 A/115 V AC 1.5 A/230 V AC
Overload protection	CH1:105 ~ 135% Type of AC protection: cut-off when critical value is exceeded, automatic resumption after return to normal operation. UPS circuit: internal fuse
Overvoltage protection	CH1:15.87~18.63 V
Min. battery voltage	10V±0.8 V
Working temp.	-10°C~60°C
Humidity	20~90% RH
Storage conditions	-20°C~85°C,10~95% Y/Y
Dimensions	199 x 110 x 50 mm (D x S x W)
Weight	0.88 kg

Product Description

This Cyberpower Powerboard is designed for use with your home theatre and IT equipment thanks to its surge suppressing functionality. The powerboard helps to prevent damage caused by power irregularity while also reducing frequency interference by filtering EMI and RFI noise. It comes with 8 AC outlets plus 2 USB 2.4A ports so you'll be able to power appliances and recharge your USB charging devices simultaneously.

- This powerboard comes with 8 outlets plus 2 USB quick charging ports.
- It's designed for use with sensitive equipment such as computers, TVs, modems, stereos and more.
- The surge suppressor functionality helps to provide a consistent power supply to prevent damage which can occur from power surges.
- It has an automatic shutdown functionality which will automatically switch off power when an overload is detected.
- This powerboard uses MOV technology, allowing a normal current to pass through but diverting surges or spikes.
- Automatic Voltage Regulation stabilises the AC signal to maintain and control high and low voltage without having to use the battery, lessening the likelihood of data loss, memory freezes and system crashes.

C14 to 2x C13 cable

C14-to-C13 splitter allows 2 devices with C14 inlets to share one AC power input cord and one C13 outlet on a PDU or UPS system.

- Connects 2 devices to one AC outlet to save space and reduce cable clutter
- Recommended for powering dual computers, monitors or other compatible peripherals
- 6 ft. length allows flexibility in placing devices in relationship to AC outlet
- Ideal replacement for worn-out or missing C13-to-C14 PDU-style extension cord

Product Description

C14-to-C13 Y-Style Splitter Cord Connects 2 Devices with C14 Inlets to One C13 Outlet

This IEC-320-C14 to IEC-320-C13 splitter allows two devices with C14 power inlets to share one AC input cord and one C13 outlet. This C14 male to C13 female cord features a C14 end for connecting to an AC power source and two C13 ends for connecting to devices. By connecting two devices to one outlet, the power cord splitter frees up space in a PDU, UPS system or surge protector and helps reduce cable clutter. The six-foot length allows you flexibility in placing equipment with respect to the power outlet.

Dual IEC Cable Powers a Wide Variety of Essential Electronics

With this PC power splitter, a single C13 outlet can power two devices, such as computers, monitors, printers, instrument amplifiers and other equipment compatible with a C13 connector. Ideal for areas where AC outlets are limited, such as rack cabinets, this dual IEC cable is compatible with Tripp Lite power and extension cords.
