About this item

- Specifically designed for maximum performance for backyard decks, sunrooms or other weather-exposed areas you would not put a regular home speaker
- Solid, paintable, UV treated ABS cabinets with rust resistant grills
- 5-way binding posts assure a hassle-free, secure wire connection
- Multiple mounting options with included mounting bracket and dual, M6 threaded inserts
- 0.5 inch tweeter with 5.25" woofer for full range sound quality

Product Description

Send your music outdoors while you entertain, cookout or just plain relax with the Energy Take Classic I/O 5 indoor/outdoor speaker. Fill your environment from soothing background music to a rocking party atmosphere; the I/O 5 can handle it all. Designed to look great above a deck, complimenting a year-around sunroom, or even mounted in an exercise room, the white cabinet can be painted to match any decor. The I/O 5 comes with a mounting bracket that allows either

vertical or horizontal mounting while unique M6 threaded inserts tackle unique business or residential applications.
